TRIGO TRP1710RH 系列 — 整合式舒適提把 模組化前置車架

TRP1710RH Series — Integrated Comfort Handle Modular Front Carrier Frame

TRP1710RH 系列的最大特色在於其一體化寬幅提把設計。當包款自單車快拆系統卸下時，內建的頂部提把能提供極為順手、符合人體工學的單手攜行體驗。本系列採用高品質 6 系鋁合金主框架，搭配高強度工程複合塑料連接件，完美契合都會通勤、商務公事包或日常休閒包款的開發需求。

The standout feature of the TRP1710RH series is its integrated wide-handle design. When the bag is detached from the bicycle's front carrier block, the built-in top handle provides a highly ergonomic and convenient single-handed carrying experience. Built with a high-quality 6-series aluminum alloy main frame and high-strength engineered composite fasteners, this series perfectly fulfills the development needs of urban commuting, business briefcases, or daily leisure bags.

TRP1710 平台核心優勢 / Core Advantages

• 1. 10年市場驗證底盤 / 10-Year Market-Proven Chassis :

專為 Brompton 快拆系統與全球單車包品牌商打造，歷經全球市場大批量、長週期的真實騎行考驗，工藝成熟，公差控制精準。

Specifically engineered for the Brompton quick-release system and global bicycle bag brands. It has undergone extensive, long-cycle real-world riding tests across international markets, offering mature craftsmanship and precise tolerance control.

• 2. 模組化底部承托系統 / Modular Bottom Support System :

通用底座內建 3 個精密螺絲定位孔。若包款有高載重或加深需求，可直接加裝專屬擴充支撐板，有效防止袋體下垂、變形或前傾。

The universal base features 3 built-in precision screw positioning holes. For bags requiring heavy loading or extended depth, a dedicated expansion support plate can be directly attached, effectively preventing sagging, deformation, or forward tilting.

• 3. 專業級陽極氧化表面處理 / Professional Anodized Surface Treatment :

主體鋁管材皆經過專業陽極處理，大幅提升抗刮與耐腐蝕性能，並賦予產品細膩的高級霧面金屬質感。

The main aluminum tubes undergo a professional anodization process, significantly enhancing scratch and corrosion resistance while imparting a refined, premium matte metallic texture to the product.

TRP1710RH 現貨規格與公稱重量清單 / Specifications & Weight Matrix

數據源自官方最新標準，尺寸單位統一為 mm / Data sourced from the latest official standards; dimensions are in mm:

序號 No.	型號 Model	架子高度 Height (mm)	架子寬度 Width (mm)	公稱淨重 Net Weight
1	RH1730	170 mm	298 mm	323.0 g
2	RH1928	190 mm	280 mm	331.6 g
3	RH2030	205 mm	296 mm	349.2 g
4	RH2135	215 mm	348 mm	360.2 g
5	RH2530	255 mm	300 mm	356.6 g
6	RH2534	255 mm	340 mm	338.3 g
7	RH2540	255 mm	396 mm	375.2 g
8	RH2828	275 mm	280 mm	369.0 g
9	RH3025	295 mm	250 mm	377.2 g
10	RH3040	295 mm	396 mm	406.0 g

*備註：以上表格之公稱重量均包含高強度工程複合塑料快拆底座與一體式提把組件。

*Note: Nominal weights in the table above include the high-strength engineered composite quick-release base and integrated handle assembly.

B2B 品牌商 OEM/ODM 合作開發 / OEM/ODM Partnership

TRIGO 擁有多年與國際一線單車包品牌合作的成熟代工與共同研發經驗。歡迎提供您的包款草圖、內襯打樣或尺寸需求，讓我們用最札實、模組化的工程底盤為您的品牌全力賦能。

TRIGO possesses years of mature experience in OEM/ODM collaboration and joint R&D with top-tier international bicycle bag brands. We welcome you to provide your bag sketches, liner prototypes, or dimensional requirements. Let us empower your brand with our robust, modular engineering chassis.
